Education is invaluable. On average, American families spend about \$6000 a year to supplement their child's education. But not every child is so fortunate.

In Pontiac, one in four of kindergartners this year will not graduate from high school – two in five won't be able to read proficiently. It's no one's fault, but it's everyone's responsibility.

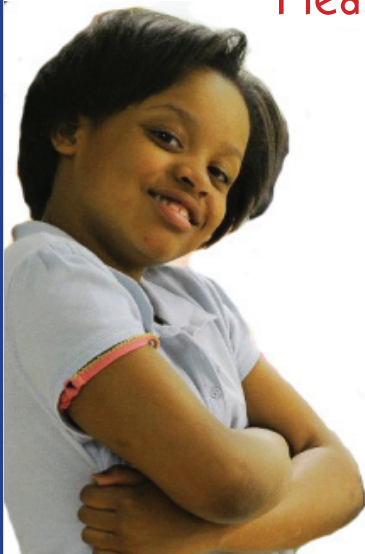

Bound Together takes Pontiac elementary school students after class and makes sure that they don't get left behind. Regular assessments designed by volunteer specialists, curriculum based upon the nationally acclaimed Common Core standards and a committed volunteer corps, assures that Bound Together's children understand all of the 'building block' skills one measurable step at a time.

Reach out and give a child a chance at individualized attention. Give them the nutrition they need to succeed. Give them hope, because they know we're all standing behind them.

**Bound Together operates year round for just about \$12.50 a day per child.  
That's a lifeline for our children and our future. Please donate today.**

Please consider helping us continue this worthwhile endeavor by donating what you can - both financial support and time.

Bound Together

Bound Together's mission is to nurture self-worth and academic growth for Pontiac elementary school students performing below grade level.
